Repertoire Classics for Piano is a comprehensive and progressively graded collection of classic solos for piano. The included data CD contains the following for each solo: performance tracks as well as master class lessons featuring performance and practice techniques by piano pedagogues Paul Sheftel and Phyllis Lehrer for each piece. Listen to performances from a real concert grand piano and get the benefit and insight of master instructors as they teach the finer points of performance, technique and even offer some historical context. These books contain a fine mix of easy to play, unabridged, original piano solos written by "the masters" for beginning pianists. Many of the pieces in this collection are on state contest/festival required music lists and cover performance levels from grade 2 through 5. There is a wide variety of music from all style periods and by some of the greatest composers of all time. Biographies of each composer are also included. These collections are a must for piano students and teachers.

 Ophee tells us that there can be no doubt that Cendrillon was Fernando Sor's most successful work during his lifetime. The three-act ballet ran for a full season in 1822 at the newly rejuvenated King's Theatre in London, more than 100 performances in Paris, and productions across Europe. Sor wrote the piano solo version before leaving London in pursuit of other opportunities on the Continent. This handsome 112-page publication features lay-flat binding.

Cornick is back with five more solid piano duet arrangements. For his "romantic" set, he has chosen Martini's *Plaisir d'amour*, Nola (by Felix Arndt), Santa Lucia, Fascination (instantly recognizable waltz by Fermo Marchetti), and Jerome Kern's *They Didn't Believe Me*. Each of these intermediate-level duets has a connection to love and romance. The included CD features full performances of all five, plus play-along tracks for both primo and secondo piano parts. Suitable for concert events or personal enjoyment.

Olde English Suite explores Carter Pann's infatuation with Edwardian English culture as popularized by *Downton Abbey*. Its four movements (Overture, Sarabande, Pastorale, Finale: Gallop) evoke the atmosphere and character of that elegant age. The composer notes he also had the desire to write a duet for pianos that he could have a wonderful time playing with other pianists.

ARCHIVAL WORKS and OUT-OF-PRINT MATERIALS

If you are looking for an archival or out-of-print work, please complete the photocopy license request form under the "licensing" tab on our website

www.carlfischer.com

Throughout the Trade Guide are titles with the indication "CP."

These are works available as print-on-demand, or **Custom Print**, editions. While **Custom Print** began as a service to provide one-off copies of music that had gone permanently out of print, we quickly realized that this was the perfect opportunity to bring new music to print, which would not otherwise be available!

We take great pride in the advances we've made in **Custom Print** production quality, and we work hard to ensure the shortest turn-around time possible between order and shipment. Today, our **Custom Print** department ships thousands of copies each year as a matter of routine.

Custom Print editions can be ordered quickly and easily through your Sales Rep, along with all of your normal print music needs.

Most **Custom Print** orders are shipped the same day or the following day, but if your order is time-sensitive, please be sure to communicate this to your Sales Rep at the time of the order.
