The seminal John Philip Sousa March Collection now exists in standard book format, featuring the first publication of a full conductor's score of all marches. This collection includes 16 of Sousa's greatest marches originally published by Carl Fischer Music between 1886 and 1894. In order to maintain the integrity of the original works, there are no added or changed articulations, changed instrumentation, or re-scored parts. The changes made from the original are intended to clarify errors and remove inconsistencies in dynamics, hairpin placements, and articulations.

Read what the directors are saying:

"Dr. Robert Spradling's new contribution to the pedagogy of conducting, *Error Detection Exercises for the Instrumental Conductor*, is a welcome and long-overdue addition to the conducting teacher's resources for systematically teaching the critical issues of listening and hearing from the podium. This book presents a clear and logical pedagogy designed to serve the novice conductor and to challenge the most advanced graduate student. This is accomplished within a rehearsal setting with students leading the ensemble from the podium, charged with the dual responsibility of detecting errors and providing musical leadership and inspiration. If the art of listening is the cornerstone of great teaching and great conducting, *Error Detection Exercises for the Instrumental Conductor* is an essential resource for any student who aspires to lead others from the podium in the art of music making."

—Craig Kirchhoff, Director of Bands,
University of Minnesota

"In over forty years of teaching, I have yet to see such enthusiasm as that demonstrated by my graduate conducting students after experiencing firsthand the benefits of Robert Spradling's *Error Detection Exercises for the Instrumental Conductor*. This same excitement was shown by both our beginning conducting students and the College-Conservatory of Music graduate orchestra conductors as they worked with the exercises. The benefits of correcting the errors found in the actual literature excerpts were obvious to all who participated in the classes regardless of their skill level or area of expertise. Dr. Spradling's *Error Detection Exercises for the Instrumental Conductor* is surely destined to become an integral part of all conducting classes, and I urge all of my colleagues to examine it at their earliest opportunity. You'll be happy you did!"

—Rodney Winther, Director of Wind Studies
College-Conservatory of Music, University of Cincinnati

Simply Strings

by Denese Odegaard

**Northeastern
music
publications, Inc.**

Uncluttered pages

- Easy to follow Steps to Practice.
- Separate boxes introduce new words and concepts.
- Photos of hand position for each new note.
- Simple exercises.
- Practice Time chart at end of each lesson.

Different pedagogy

Learn, Practice, and Apply. Students start with fingers down. Lesson One starts with F#, not an open string. This is easy for a beginner. To add new notes, students just lift a finger, then another finger, and finally an open string. They also learn to read by interval.

Comprehensive curriculum

Lessons utilize a Scope and Sequence concept and build upon previous lessons. Students also learn form, pitch relationships, music terminology, improvisation, and basic composition.

Play-along CD

The enclosed CD is a recording of a simple piano accompaniment for each lesson. Since this is the same accompaniment used in class, home practice can better reinforce classroom instruction.

Affordable, concise and teacher friendly

Rather than being a large textbook with general suggestions, the teacher edition presents a practical approach. Hints are concise and support each lesson. An additional CD with warm-ups, worksheets, and suggested lesson plans is also included.

Proven method

Denese Odegaard, a nationally recognized string educator, has successfully used this method in her music classes for over 20 years.

March Style Warm-ups — Advance — College Boy — Hiland — Military Escort — Normal — Pivot Man — Power — Precision — Sabo — Safety — Service — Welcome

The Bennett Band Books, published in four volumes starting in 1923, were used to teach the march form and style to literally millions of young band musicians in the middle of the twentieth century. These delightful marches composed by famous march composer Henry Fillmore (using the pseudonym Harold Bennett) have been given new life by arranger Larry Clark. This second collection includes an additional twelve Bennett marches. Also included is a helpful march warm-up section composed by Larry Clark to help teach march form and style to young students. There is also the added benefit of a full, professional recording of each selection available for download at www.carlfischer.com. This is a valuable collection for any level band to use for marches at contest/festival performance or for sight-reading purposes.

The seminal John Philip Sousa March Collection now exists in standard book format, featuring the first publication of a full conductor's score of all marches. This collection includes 16 of Sousa's greatest marches, including: Washington Post, Semper Fidelis, The Thunderer, and many others, originally published by Carl Fischer Music between 1886 and 1894.

In order to maintain the integrity of the original works, there are no added or changed articulations, changed instrumentations, or rescored parts. The only changes made from the original are intended to clarify errors and remove inconsistencies in dynamics, hairpin placements, and articulations due to the original method of copying parts one at a time. These markings were unified during the re-engraving process to ensure the highest quality honoring the original intentions of the composer.

	new Aurora Eclipsed (CF)	
BPS117	Complete Set	\$55.00

Aurora Eclipsed was inspired by the solar eclipse of 2017. During a solar eclipse, a beautiful and fascinating aurora sometimes forms around the moon creating an eerie outline. This "ring of fire" is actually the sun's outer edges being revealed for the human eye. An aggressive composition younger students will enjoy playing over and over again.

With very strong and interesting melodic material, and scored to make a developing band sound great, this piece is sure to be a favorite among students.

	new Solar Flare (CF)	
CPS219	Complete Set	\$95.00
CPS219F	Full Score.....	\$12.50

Solar Flare by Tyler Arcari depicts the huge explosion on the Sun that appears as a sudden bright flash. The piece incorporates a whirlwind of mixed meters to depict this phenomenon. Arcari showcases his fresh, exciting, and well-scored compositional style in this piece. *Solar Flare* makes for an excellent concert opener.

	Stryker (CF)	
FPS137	Complete Set	\$60.00
FPS137F	Full Score.....	\$8.50

The term "stryker" refers to an individual who assisted a blacksmith with his craft, wielding a hammer and shaping iron to their will. As the title suggests, *Stryker* is a dark and harsh piece full of percussive sounds depicting a Stryker as they assist a blacksmith. The break drum gives us a hammered-iron effect while the china cymbal mimics the steam of tempering steel. Students will enjoy this fast-paced and intense piece, great for opening a concert or providing an exciting finish.

This is one of Harold Bennett's (pseudonym of Henry Fillmore) lesser-known marches, but that is no indication of its quality. It is a 6/8 march in standard march form but what is unique about this classic from the original Bennett Band Book is that it is one of the few Bennett marches that includes a "break strain." This makes it a great introduction for younger students to prepare them to play the more challenging marches of Fillmore, Sousa, and others.

A very interesting new setting for band of British folk songs that were actually arranged for voice and piano by Beethoven! Arranger Balent has created a delightful three section piece based on Beethoven's work. It is a colorful new rhapsody for band that works exceptionally well. It would be a refreshing piece in a concert or contest program.

March of the Royals is a concert march for developing concert bands. Although familiar, with all the ingredients found in a typical march, this piece is written in a more regal and elegant style that is characteristic of English style marches. The piece is written for younger musicians but directors will find that it is carefully scored to help ensembles sound older than their years.

The march style is important to the heritage of the modern concert band. Why not get beginners off to a great start by teaching them this essential band style as early as possible? *Achieve* uses only the first six notes of the B \flat Major scale and utilizes two repeated eighth notes as the most difficult rhythm. It is written in traditional march form and style, but without modulation in the trio.

Larry Clark's *Adamant* is strong from the very beginning helping even the youngest of players sound confident and assertive. The work is set in C minor with simple rhythms no more difficult than two repeated eighth notes. With biting dissonances and angular interjections in the flowing main theme, the piece is quite dramatic for beginning band students. They will want to play it again and again.

After a return to the poignant opening material, the music surges to a triumphant conclusion based on an augmented version of the whimsical theme.

Imagine if you can the north pole where Santa keeps all of his reindeer. Someone, whether Santa himself or the elves in his employ, has to keep them fed, warm, and happy if they are to do the impossible again in a year's time. <i>Old St. Nicholas Had a Farm</i> has some fun with this idea by mashing up the classic song <i>Old MacDonald</i> with popular Christmas Carols. Using only the first six notes of the B \flat scale and only two repeated eighth notes as the most challenging rhythm, students will feel comfortable playing the sound of sleigh bells, the crack of Santa's whip, and the thunder of reindeer hoofs. This piece will make a perfect addition to your next holiday concert and audiences will delight in participating.

<i>Tartan Tapestries is an original piece that sets out to emulate Scottish folk music. Composer Larry Clark has created a concert overture in triple meter to capture the essence of music from Scotland. After a lilting first section, lush and beautiful moments weave a tapestry of sounds with the lyrical, middle section of the piece. There is an optional part for bagpipes, and an optional ending should you chose to use this instrument as part of the piece. YPS196	Complete Set	\$70.00
YPS196F	Full Score.....	\$10.00
<i>Aeolus is the Greek mythological god of the winds. The title of this piece was chosen, in part, because of the Aeolian quality of the music. Although not strictly harmonized in the Aeolian mode, the themes themselves are purely Aeolian. The compositional form bookends a broad and dramatic middle section with two sections in regal march style. Aeolus is sure to be a great teaching tool for young bands!</i>

This piece would be a great opportunity for cross-curricular instruction with a school's history department. Aztec Gold is also a perfect selection to highlight a band's strengths in contest or festival performance.

new Ballet of the Dinosaur Hatchlings (A Fantasy for Band)

 (CF)	
PPS52	Complete Set	\$50.00
PPS52F	Full Score	\$6.50
<i>Ballet of the Dinosaur Hatchlings is an imaginative and fun selection for a beginning band with less than one year of instruction. Wind parts use only five pitches and only the percussion parts use eighth notes. Two sound effects are required in the piece. First, the hatching eggs are portrayed by a ratchet, and second, the snapping dinosaurs jaws are represented by a slapstick. Ballet of the Dinosaur Hatchlings is an intriguing piece that beginning students are sure to love.</i>

Portrait in Rhythm is a study in various rhythmic moods and will challenge your players to "stay on their toes" and concentrate on rhythmic accuracy. But, the piece is so much more than that. Veteran composer Gary Fagan has written a wonderfully tuneful composition that uses ever changing rhythm to give it its "hock" but without sacrificing a wonderful melodic sensibility.

Sailing Into the Moon, a strong and tuneful beginning band piece, was inspired by the image of a Windjammer sailing toward the rising moon on the horizon. Veteran composer Gary Fagan draws from his experience as a long time educator to provide music that students will enjoy learning and performing.

An exceptionally clever idea, to combine the standard bugle calls into an easy march for beginning students. It is something they already know, and can be successful with right away. We are delighted to welcome composer/educator Chris Ferguson to the Carl Fischer catalog. He brings a wealth of experience working with beginners that has translated into this wonderful new march for young students.

The years leading to the US Bicentennial (1976) saw a great flowering of artistic celebration, including the commissioning of American composers to write festive works for the occasion. The Nashville Symphony and its conductor Thor Johnson asked Adolphus Hailstork for such a work to premiere, and to distribute the music at no cost to high school orchestras around the United States. The present version for band followed as a natural offshoot of the infectiously exhilarating 3-minute work.

Festival March is presented in a new edition arranged by Richard Summers. It is a tour de force composition for advanced bands and hearkens back to a bygone era during the golden age of the band movement. Directors and students will hear operatic music from composer Victor Herbert who is best known for his Christmas classic, Toyland. This is a richly scored masterpiece that deserves to return to "standard" status in concert band repertoire. We are proud to bring you this new setting of this cherished classic.

With Wind and Water is a musical portrayal of an adventure on the high seas during the sailing age during the 16th to the mid-19th century, when large sailing vessels dominated global exploration, international trade, and naval warfare. The piece's compound meter provides the pulse of movement as it pitches and rolls with the rhythm of the waves. The driving main melodies convey the determination and courage of the explorers and their crew. Dissonant harmonies suggest rough seas, turbulent weather, and other constant dangers that sailors must endure. Finally, the ending sweeping melody and climax reflects the joy and triumph at arriving on a new land at the apex of a long and intense voyage.

Already one of the most popular choral settings in the Carl Fischer Music catalog, Michael John Trotta's setting of **Veni, Veni Emmanuel** has now been skillfully transcribed by James Meredith for band. Trotta's setting of this seminal carol juxtaposes the old and new together in a refreshingly different approach to the song. The piece can work with band alone or with the popular choral setting. It is sophisticated enough for high school groups to put together quickly and can also work well with middle school groups.

Colonial March is a stately British style march for beginning bands. George Washington served in the British colonial army prior to the American Revolution when he became the colonies' Commander-in-Chief and later the first President of the new nation. Two melodies, *Yankee Doodle* and *America (My Country 'Tis of Thee or God Save the King)* were known to both the British and American armies and are incorporated in this precious march for the youngest of students.

The mystery and romance surrounding Egypt's Nile river, expansive deserts, mighty pyramids, Valley of the Kings, and legacy of art and culture has inspired generations of men and women around the globe. In ancient Egypt, the word "Pharaoh" meant "Great House," referring first to the royal palace itself and later to the ruler in power as an official title of leadership. *Land of the Pharaohs* is a short, musical depiction of the power that the ancient Pharaohs once held and the drama that has captivated mankind since the end of their long reign.

Step right up, ladies and gentleman, boys and girls, step right up! See the exotic, the strange, and the magical at the *Cirque de L'étrange*, or "Circus of the Strange." This piece evokes a bygone era when circuses and carnivals provided people from all walks of life a chance to see human and animal oddities. *Cirque de L'étrange* is an original concert march written in standard march form, but its sound is anything but standard. This piece is playable by younger groups and is a great way to expose students to the march form and style without sounding like your typical march.

	new The Gauntlet (CF)	
BPS115	Complete Set	\$55.00
BPS115F	Full Score.....	\$6.50

The Gauntlet is a piece written to sound bold and exciting while also being accessible to young performers with a limited range. Simple yet bold rhythms add excitement, heightened by the fact that every section has an opportunity to play melodic content. The interesting "development" section provides a contrast to the opening and helps to build the suspense before the return of the main theme. The percussion helps to drive the energy of the piece by providing a variety of colorful sounds including a gong solo at the end to signal the knight's triumph.

	Generosity (March) (CF)	
YPS191	Complete Set	\$70.00
YPS191F	Full Score.....	\$10.00

Generosity is an original march in standard form, but written with developing players in mind. It is reminiscent of the wonderful marches of Bennett or King, with tuneful melodies, interesting harmonies, and a few chromatic twists thrown in to make it more exciting. Matthew Putnam has written a perfect vehicle to teach the march style and form to developing players.

	Invictus Rex (CF)	
FPS148	Complete Set	\$60.00
FPS148F	Full Score.....	\$8.50

Invictus Rex is the Latin phrase for an invincible or undefeatable king. It calls to mind a paragon of strength, boldness, and confidence in the face of challenges and adversity. Audiences will imagine a medieval king attired in heavy armor confidently leading his men into battle, assured in the idea that, though the battle is to be long and arduous, they will ultimately reign victorious. New composer Matthew Putnam draws on his experience as a music educator to provide us with this piece that students will absolutely love to play.

	new Ultrior Motifs (CF)	
FPS150	Complete Set	\$60.00
FPS150F	Full Score.....	\$8.50

The title is a play on words, but the composer had his own ultrior motives in mind when composing this piece. He wanted a piece that was fun to play, but that helped developing musicians work on their rhythmic skills. Matt Putnam uses the feel of action film soundtracks to create the mood of this interesting new piece. Interesting grooves in the percussion throughout add to the piece's feel of mystery and thrill.

	new Wolverine Trail (March) (CF)	
BPS118	Complete Set	\$55.00
BPS118F	Full Score.....	\$6.50

Wolverine Trail is a concert march for beginning bands and is rather helpful in introducing beginners to the march form and style. This piece is based in the key of E_b Major and uses only the first seven notes taught in most method books. It is also rhythmically accessible to beginners, as simple eighth-note combinations are the most difficult rhythms in this march. The piece follows standard march form except that it does not modulate at the trio section.

Sean O'Loughlin (CF)

SPS73	Complete Set	\$100.00
SPS73F	Full Score.....	\$12.50

Composer/arranger Sean O'Loughlin has provided a refreshing new setting of our National Anthem. It was originally written for orchestral brass and percussion and has been performed at both MLB and NBA events. The arrangement begins with a bold fanfare to set the tone, but also to provide the motive glue to hold the arrangement together and create something unique. Creative harmonic usage and colorful orchestration really make this version stand out from the rest.

Battle Hymn of the Republic

(Critical Edition for Band)

Peter Wilhousky/arr. Justin Tokke (CF)

J763	Complete Set	\$95.00
J763F	Full Score	\$14.00

Made popular by the Mormon Tabernacle Choir's Grammy winning performance in 1959, Peter Wilhousky's famous arrangement of **Battle Hymn of the Republic** has remained a staple to this day. In this Critical Edition for Band by Justin P. Tokke, a new arrangement has been crafted based on Wilhousky's original orchestral scoring. To enhance playability, generous cross-cuing and doubling of the choral parts have been applied in cases where the band version is played without voices. This new arrangement ensures complete compatibility with both the choral and orchestral versions, with new measure numbers and rehearsal marks, and comes complete with a full score and parts produced with modern engraving standards. This exciting edition is ready to continue Wilhousky's legacy and hopes to inspire future collaboration and new performance opportunities.

Battle Hymn of the Republic in Carl Fischer Music editions has always been performable by diverse ensembles, separately and together. Tokke's arrangement makes this much easier. Also available are these ensemble arrangements:

C120 – Full Orchestra
 CM4743 – SSATTBB
 CM9356 – SAB
 CM6777 – SSA
 CM6778 – TTB

The title, *Aerius*, is a Latin term meaning "soaring" or "rising aloft". This piece is signature Carl Strommen at his best. The piece begins with a lush brass chorale that is developed before leading to an energetic presto section. The composition comes full circle and finishes with a majestic return of the chorale material from the opening. A welcome addition to the repertoire.

YPS199	Complete Set	\$70.00
YPS199F	Full Score.....	\$10.00

Tum Balalaika is attributed to a number of Eastern European countries, but is best known as a Russian Jewish folk/love/"riddle" song. Loosely translated, "tum" means "noise," and the Balalaika is a Russian stringed instrument with a characteristic triangular, hollow wooden body and three strings, closely related to the domra and mandolin. Carl Strommen's wonderful setting will help any group sound their best.

<i>Black light</i> is defined as infrared or ultraviolet light which is invisible to the naked eye. The idea of an entire spectrum existing out of the range of human perception was a large influencing factor for George Sweet in the composition of this piece. Richly scored for the modern concert band, <i>Black Light</i> is written in a post-minimalist style and is also heavily influenced by the work of American composers Steve Reich, John Adams, and Philip Glass.

<i>This new piece from composer George Sweet is a delightful combination of Scotland the Brave and Amazing Grace. Every section of the band is given a chance to shine in this delightful new piece for beginning band.

Virgo is a lush and dramatic piece for concert band that reflects upon lost loved ones. In the case of the composer, the piece is in remembrance of his late brother whose astrological sign was Virgo. It is an emotional harmonic journey with well-placed dissonance tied together by a memorable motive. Musically, this piece is beautiful, emotive, and will stretch your young musicians to strive for musical elegance.

Amber moons are beautiful and rare full moons, created when the sun is high in the sky and directly opposite the moon. *Amber Moon* begins with an opening fanfare, then moves into the first theme based on this fanfare. A second statement of the theme is repeated softly, followed by a lyrical secondary theme in the woodwinds. Variations follow this statement, and cyclically, like the comings and goings of the Moon and Sun, the piece concludes with a return to the initial theme.

Badlands occur throughout the world, and are represented by dramatic terrain created by sediment that is deposited in layers, then solidified and is eroded over millions of years. These processes leave stark, but beautiful structures in a harsh and alien landscape.

Badlands opens with a first theme that depicts the stark emptiness of the badland terrain. This moves to a brooding, mysterious second theme followed by variations on this theme. A brief lyrical theme and a return to the second theme follow. The piece ends with a return of the first theme for a dramatic finish.

However, if they come into the world through the gates of horn they are true dreams that tell the user of things to be, or illuminate truth. *The Gates of Horn* is a dramatic piece for band that alternates a syncopated fanfare with a bold, yet lyrical theme. These contrasting ideas chase each other throughout the piece.

Already one of the most popular choral settings in the Carl Fischer Music catalog, Michael John Trotta's setting of *Veni, Veni Emmanuel* has now been skillfully transcribed by James Meredith for band. Trotta's setting of this seminal carol juxtaposes the old and new together in a refreshingly different approach to the song. The piece can work with band alone or with the popular choral setting. It is sophisticated enough for high school groups to put together quickly and can also work well with middle school groups.

Although some stories in Greek mythology reveal a different side to his character, Apollo was widely regarded to hold a cheerful personality and communicating joy through the music he played on his lyre. *Apollo Arise* is an energetic and spirited work for band ideal for opening a concert. The uplifting and exuberant melodic material lead the group on a sonic journey to capture the joy and light music can bring to both the audience and the performer.

edited by Justin P. Tokke (CF)

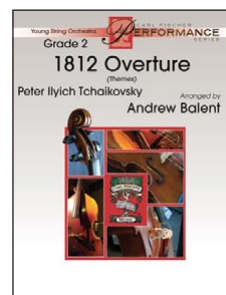

C120	Complete	\$90.00

Battle Hymn of the Republic has become a staple song in the American patriotic vernacular. The famous arrangement by Peter Wilhousky made popular by the Mormon Tabernacle Choir is the setting that has become synonymous with this enduring song. Justin Tokke has provided us with a new critical edition of the piece that for the first time includes a full score and detailed notes on the history and performance practice of this monumental work.

All Levels

for String Orchestra

SERIES GUIDELINES YOUR STRING ORCHESTRA CAN DEPEND ON

PRIMER STRING ORCHESTRA

(Grade $\frac{1}{2}$ - Orange Cover - Cat. Nos. w/PAS)

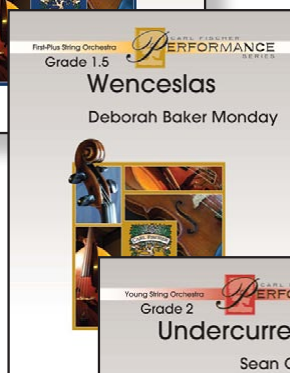

- For string orchestras with as little as ten weeks of study
- All pieces limited to the use of the first three fingers on each string
- Limited instrumentation - Violin 2 and Viola the same part, Cello and Bass the same part
- Simple rhythms of whole, half and quarter notes - If eighth notes are used, they are on the same pitch
- If *pizzicato* is used, there is rest given to give the young players time to retake the bow
- Shorter pieces - length is a consideration for very young players for concentration and strength reasons

BEGINNING STRING ORCHESTRA

(Grade 1 - Blue Cover - Cat. Nos. w/BAS)

- For first year string groups limited parts (often, 2nd violin and viola are the same part, cello and bass are on same part)
- Limited keys, rhythms (only simple eighth note patterns) and independence of parts
- Playable after limited study time
- First position and natural bowings
- Piano for rehearsal and reinforcement

FIRST-PLUS STRING ORCHESTRA

(Grade $1\frac{1}{2}$ - 2 - Yellow Cover - Cat. Nos. w/FAS)

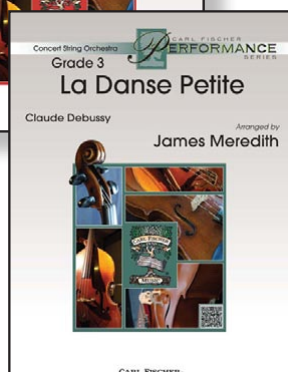

- Playable at the end of most 1st year method books
- For developing ensembles
- Same instrumentation as beginning level
- More eighth-notes
- Simple syncopated rhythms

YOUNG STRING ORCHESTRA

(Grade 2-2 $\frac{1}{2}$ - Red Cover - Cat. Nos. w/YAS)

- Playable by second and third year ensembles
- Occasionally extending to third position
- Keys carefully considered for appropriate difficulty
- Addition of separate second violin and viola parts (also a viola T.C. included)
- An increase in independence of parts over beginning levels

CONCERT STRING ORCHESTRA

(Grade 3 and up - Green Cover - Cat. Nos. w/CAS)

- Playable by advancing ensembles
- Expanded use of rhythms, ranges and keys but technical demands are still carefully considered
- More comprehensive bowing techniques
- Viola T.C. included
- Careful selection of keys and degree of difficulty for advancing musicians

Composer Tyler Arcari draws on his background in music education to bring us a stunning new piece that young string students will love to play. It will sound rich and full, even with younger players.

**Barker, Paul**

	new Perpetuum (CF)	
YAS197	Complete Set	\$50.00
YAS197F	Full Score.....	\$8.00

Perpetuum is a lively and contemporary addition to any concert performance with its memorable melodic lines and relentless driving rhythms. The piece begins with a powerful introduction to the main theme which is ingeniously augmented as the piece powers forward. The middle section provides a warm, lyrical contrast performed by the lower strings. The main theme returns with a wall of sound heading to a dramatic close. This beautifully expressive and contemporary work is a nice change of pace for orchestra students. Using the optional percussion parts are highly recommended for optimal effect.

	new Titan X (CF)	
CAS122	Complete Set	\$55.00
CAS122F	Full Score.....	\$9.00

Titan X is a formidable piece of programmatic music which stirs visions of grandeur and power as the relentless pulse of this contemporary work powers ahead. The triumphant theme in the first section quickly develops momentum, accompanied by powerful percussion and a driven beat. The middle section is surprisingly lyrical, going through several key changes and offering a brief respite before the main theme returns in a climactic finale. Use of optional percussion is recommended.

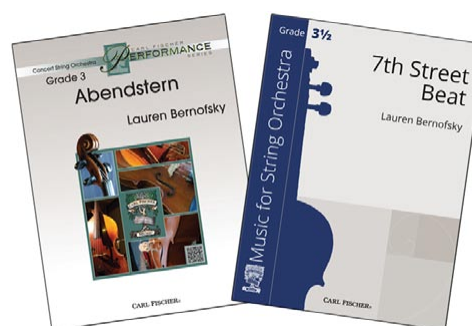

**Bedford, Seth**

	new Crown of Aragon (CF)	
FAS112	Complete Set	\$48.00
FAS112F	Full Score.....	\$7.00

Crown of Aragon is a haunting but stately Pavan in the Renaissance style. Young students will experience ABA style in the keys of D minor and F Major. Care has been taken to avoid all low first fingers, but low second fingers will be used throughout. The middle section features lower string melodies on the C string for viola and cello, and into third position briefly for bass. The alternating between arco and pizzicato not only helps with dynamic contrast, but creates a unique texture when accompanied with the optional triangle and hand drum.

**Bernofsky, Lauren**

	Abendstern (CF)	
CAS117	Complete Set	\$60.00
CAS117F	Full Score.....	\$7.50

Abendstern, composed by Lauren Bernofsky, evokes an image of a sunset over the tree-covered hills of the Bavarian countryside with the *Abendstern*, or "evening star," shining brightly over the scene. A hauntingly beautiful theme in falling thirds evokes the treetops as they become darker and murkier. This piece is a wonderful addition to any concert program and can be used as a touching tribute at a memorial service.

	new 7th Street Beat (CF)	
CAS123	Complete Set	\$55.00
CAS123F	Full Score.....	\$9.00

Lauren Bernofsky's *7th Street Beat* is fun and unique, with beatbox percussion in the parts of all the instruments which imitates the percussive effects normally made by a drum set. The beatbox vocal lines are optional since they are reinforcements for the beatbox sounds in the string parts. Also optional (but highly recommended!) is the improvisation section starting at m. 49. Don't tell the students any rules about what notes to play or not play – simply offer them the opportunity to make up whatever they like, to show off their abilities and musical personalities! This piece makes for a great alternative selection in a spring concert program.

CAS119	Complete Set	\$55.00
CAS119F	Full Score.....	\$9.00

These timeless melodies from Alexander Borodin have been lifted from the original score, arranged for strings, and transposed into the friendlier key of G Major. This piece poses a challenge suitable for advanced middle school orchestras, or a good exercise in melodic shaping and tone production for an intermediate high school group. Major teaching features include triplets, syncopation, ornaments, 16th note rhythms, and slurs. *Polovtsian Dances* provides a beautiful concert selection for any time of the year.

<i>Carol of the Bells Variant for string orchestra is an interesting adaptation of the popular Christmas classic. The opening three-note ostinato is presented in 4/4 time and immediately sets the tone for this intriguing variation. The piece is built on driving rhythms, and the musicians should take an aggressive performance approach. Carol of the Bells Variant will provide a creative addition to the holiday repertoire.</i>

Textures is a rhythmic and driving composition from composer Bill Calhoun. It contains shifting meters and obstinate bass lines underneath jaunty melodic material. There is a respite from the angular textures during a luscious, slow, lyrical section that features a beautiful violin solo. The pointed textures return for a dramatic finish.

<i>As the title implies, the piece uses a lot of echo effects throughout. <i>A stunning and heart-wrenching composition based on the Jewish folk song Shlof, Mayn Kind. Siberian Hunt is an exciting and adventurous work for young string orchestra. In it, the listener is transported to the frozen Siberian landscape on a hunt for beasts from a forgotten age. The piece moves with fierce energy and relentless determination. Written in B minor, it features a call/response section in the middle, rich harmonies, and a range of dynamic contrasts for the students to master. The first violins will enjoy getting to play on the E-string (watch out for G-naturals). The instrument sections are grouped rhythmically to encourage confidence of playing and ease of learning across the ensemble. The parts are balanced so all players can feel like they are an important piece of the orchestra.

With a blend of Celtic and American fiddle tunes, the medley *Emerald Melodies* begins with "Star of the County Down" in a moderate 3/4 and intensifies with two Irish jigs: "Another Jig Will Do" and "Coleraine," in multiple compound meters. Melodies are passed throughout every section while still having rhythmically interesting accompaniment parts. The last section brings it all home in the friendly fiddle key of D Major with "Lost Indian," an American bluegrass standard.

Battle of Doro Passage (CF)

CAS99	Complete Set	\$60.00

Battle of Doro Passage musically describes a real naval conflict of October 16, 1827 on the Aegean Sea. The British brig *Comet* was attacked by pirates in Doro Passage off the islands of Greece, but was retaken by a nearby American convoy who had rushed in to help. The opening "calm winds" hint at approaching danger, as each ship is introduced with its own powerful musical theme that rises, falls, and overlaps in conflict on the high seas. This is a strong teaching piece for hooked bowings, dotted quarter rhythms, and dynamic contrasts in familiar first position.

The new *Masterworks Series* by Carl Fischer Music will showcase arrangements of 20th Century American composers. *Symphony No. 2* by Howard Hanson is one of the most popular American Symphonies ever written, and is played regularly by major symphony orchestras around the world. It was originally commissioned by the Boston Symphony Orchestra to celebrate their 50th anniversary in 1930, where it was given its first performance. The work was most famously used in the end credits of the movie *Alien* in 1979. This arrangement focuses on the hauntingly beautiful second theme of the first movement. After being stated in the key of E-flat Major, it provides a contrasting section before returning in the key of D-flat Major. Cellos are featured prominently in tenor clef, and often cover the soaring horn solos from the original. Musicians will experience true symphonic beauty in this exquisite arrangement for strings and harp.

This lighthearted quodlibet was commissioned by ASTA and premiered at the 2015 conference. It provides a fabulous tool to introduce your students to key musical themes across time. The score plays off of the musician's nocturnal mind to combine twelve historic themes by condensing and expanding them the way our subconscious mind often toys with daytime experiences. In total, this composition celebrates the string player's full potential: Where loyalty to the written note serves the imagination's creative playground. new Rejoice, East and West... Traditional (CF)

FAS115	Complete Set	\$48.00
FAS115F	Full Score.....	\$7.00

Rejoice, East and West pairs two of the most popular holiday pieces. "O Come, O Come Emmanuel" is one of the staples of music for the season of Advent. Its plaintive melody represents the subdued tone of Advent, waiting and anticipating during the four weeks before Christmas Day. The modal character has roots in Ancient Greece and is characteristic of the music from Middle Eastern countries. The melody of "Joy to the World" is attributed to George Frideric Handel. It first appeared in 1719 in a collection by Isaac Watts, who adapted the text. It is one of the most published Christmas hymns in North America and is one of the most iconic songs for celebrating the birth of Christ. The connection between these two contrasting pieces is "rejoice." In "Emmanuel" the modal tones arrive at a major chord and the words exclaim "Rejoice, rejoice!" This is where a bridge is composed to arrive at a jubilant introduction of "Joy to the World." This arrangement teaches students dynamic contrast, tempo changes, slurs and ties.

Dissonant harmonies and tempo changes add to the movement on the spider's web. A brief, but hauntingly beautiful viola solo is offered in the middle section before the final buildup to an exciting climax. The interesting and dramatic sounds of this work will not only teach students new techniques, but it will also motivate them to explore the limits of dynamics and articulations on their instruments.

At night you see the moon up in the sky shining in silver color. The radiance is both beautiful and tranquil. Although in triple time, the evocative Silver Moon sort of feels like it is in duple time with the combination of a half note and a quarter note. The third beat should be lighter, like Baroque dance music. It is more about a feeling so that the music sounds more natural and smooth. The work consists of three sections. The first and the third have a main theme with a repeated pattern of harmonic progressions. During the second part each melody sings more like a dialogue. The optional piano part adds to the special quality of the song.

The term "Doppler effect" describes the aural phenomenon of pitch produced by a moving source changing relative to position. An example is when a siren coming towards you is higher in pitch than when it is going away. Sean O'Loughlin uses this fascinating concept to construct an original composition that uses instances of this effect. A broad melody acts as a connective element in the piece, with a multitude of teaching opportunities for dynamics and musicality.

<i>Incursion is a collaboration between composer Sean O'Loughlin and the students of the Westport, Connecticut Public Schools. Canzone, pronounced "can-zone-ay," is the Italian word for "song." It offers young students the opportunity to work on tone production, 3/4 time, staccato to legato articulations, and dynamic contrasts. The staccato eighth notes found in all sections give a vitality to the lyrical melodies around them. Violin 2 and Viola are given opportunities to practice high third finger C sharps while cellos are practicing extensions to C sharp. Violin 1 has an optional 8va at the end, which will work for advancing students. The elegance and beauty of this work will allow students to practice improving their tone quality. Special attention should be made to bring out the melody as it occurs throughout the various sections.

<i>Part march, part fanfare, Regalia suggests a past with all the pomp and splendor of a grand celebration. Written for the students with limited experience on their instrument, notes and rhythms are simple, but the students are asked to play with vigor and determination fitting a "regal" setting.</i>

YAS152	Complete Set	\$50.00

Beneath the Irish Sky is a dramatic piece that uses traditional Irish tunes and original themes. It imagines the journey to and celebration at an outdoor harvest festival in rural Ireland. The piece is in two large contrasting sections. The first section is comprised of sweeping lyrical music that builds to its close, and is pastoral in nature. The second section is a circle dance in a series of increasingly fast variations on a peasant dance theme.

	Blindsighted (CF)	
CAS102	Complete Set	\$60.00

Blindsighted is the ability of certain blind people to respond to visual stimuli or can be used to describe the ability of people who lose their sight to still form images when they dream. This piece, *Blindsighted*, contrasts an intensely rhythmic ostinato with freer lyrical material. This contrast in textures creates rich contrasts between rhythm and lyricism.

	new Cold Fusion (CF)	
YAS195	Complete Set	\$50.00
YAS195F	Full Score.....	\$8.00

Cold Fusion is a dramatic piece for string orchestra that alternates a syncopated fanfare with a bold, yet lyrical theme. These contrasting ideas chase each other throughout the piece and their basic nature should be emphasized. The syncopated figure rarely goes away altogether and should be felt under the lyrical theme when they appear together, without becoming too prominent. Performers should pay particular attention to the places where this rhythm blossoms into a restatement of the fanfare to bring this connection out. Reserve enough energy for a big ending. In particular, allow the piece to build into the biggest moment from m. 103 to the end. The title alludes to the idea of a massive amount of energy being unleashed through fairly simple means.
