Carl Fischer Music publishes the most widely respected and trusted versions of Jean-Baptiste Arban’s method books. From *Arban’s Complete Conservatory Method for Trumpet*, to the *Dramatic Masterpieces for the Cornetist* — generation after generation of brass players know that Carl Fischer Music’s editions are *THE* definitive editions.
Chops: The Ultimate Guide to Building Tone, Technique and Flexibility is a thorough method for brass instruments written by Frank Williams, one of the most respected brass pedagogues in the world. These exercises are not glamorous, but they are the vegetables that all brass players must eat in order to improve their tone, technique and flexibility. This is a one-of-a-kind collection of exercises and insights into mastering the skills necessary to be a solid player on a brass instrument. Williams’ students are living proof that these exercises work, ranging from private students, high school bands, award-winning drum and bugle corps, current composers, band directors, and professional musicians, including Mike Roylance, tubist for the Boston Symphony Orchestra. With diligent work, Chops will help current students succeed.

Leading trumpet pedagogue David Baldwin, a prominent member of the International Trumpet Guild, has created a book of etudes packed full of exercises for building endurance and strengthening the embouchure.

**LIPS OF STEEL** is sure to become an essential part of the trumpet player’s curriculum!

Alan Raph has adapted trumpet virtuoso David Baldwin’s **LIPS OF STEEL** method for the trombone, and trombone players can experience tremendous satisfaction when reaching the end of a piece with strength, resilience, and breath remaining for that last note! In other words, playing with endurance. Baldwin wasn’t born with this ability – he learned it, and Raph’s edition allows trombone players to learn it, too.
This unique collection gives students the opportunity play chamber music with anyone else who plays a wind instrument, making the combinations of instruments almost limitless. The Art of Instrumental Accompanying:
A Practical Guide for the Collaborative Pianist
By Heasook Rhee

The Art of Instrumental Accompanying serves as an introduction for pianists who are beginning to learn accompanying for major students, and also for teachers who might be interested in considering these reflections and examples. The author’s aim here is to introduce prospective accompanists to some practical tools and concepts that will improve their skills and provide a systematic and hierarchical understanding of pertinent ensemble issues. This text is an invaluable tool from an expert artist.

Written by Dr. Heasook Rhee, faculty member in Piano Chamber Music and Accompanying at the Manhattan School of Music in New York City since 1998, this book is intended for pianists with different levels of experience. Dr. Rhee draws from her vast career as a collaborative pianist, having performed with many distinguished artists of our time, including violinists Ivry Gitlis, Ilya Grubert, Peter Zazofsky; cellists Marcio Carneiro, Charles Curtis, Karine Georgian, the late Samuel Mayes, Nathaniel Rosen, Jian Wang, Tilman Wick; tenor Nikolai Gedda, bass-baritone Simon Estes, soprano Youngok Shin, the late flutist Julius Baker, and saxophonist Harvey Pittel.

I Used to Play is a new series for adults looking to get back into playing their instruments of yesteryear and will help jump start their memory and comfort with music. Its number one goal is to get people re-acquainted with their instrument(s) by providing them with types of music they want to play, such as pop, jazz, and classic tunes, rather than etudes.

Each book contains a CD with audio MP3 files of complete performances and accompaniment versions of most songs. The CD also contains printable PDFs of piano parts for practice or performance opportunities.

It’s just the push former players need to fall back in love with their instruments again!

On May 29, 1913, an over-capacity audience in Paris’ Théâtre des Champs-Élysées witnessed an historical spectacle as they became a brute catalyst in the most (in)famous opening night of the twentieth century. The Rite of Spring premiered that evening in the midst of a riot, inspired by the overwhelming primitivism both onstage and in the score. One hundred-plus years later, the music still incites the senses. The ballet was first published in 1914 in a reduction for two pianos, and serves as a basis for this arrangement. This edition is presented in honor of the centennial of the ballet’s premiere, and is intended to give soloists and accompanists a chance to perform two movements from this monumental work. The movements can be performed separately, and the first movement can be played as a solo without piano accompaniment. For advanced players.

Pieces of Advice is a suite for horn and piano which celebrates the horn as a virtuoso instrument. It is closer to jazz horn style than orchestral horn writing and is stylistically closer to Strauss than Brahms. As a horn player who spent many hours playing orchestral parts consisting of five or six different notes, Lansky wanted to celebrate the horn as if it were a woodwind instrument rather than a brass instrument. Pieces of Advice is for advanced players and offers the opportunity for the horn player to break free.

- UE03617  Groove - Play Along with the Brass  Marshall Cooper  (UE)  $24.95

Listening to an airtight, professional brass band like Marshall Cooper can be daunting for musicians interested in entering the realm of jazz and popular music performance. Manuel Hilleke, band leader/arranger/composer, presents Groove Trumpet in hopes of making that entry a bit easier. “My aim is to use simple song and groove forms to introduce players to the basics of pop and jazz trumpet, along with section playing, articulation and phrasing techniques, soloing and improvisation.” Eleven intermediate-level pieces in various styles are annotated with tips and tricks, and the audio CD includes live recordings of the Marshall Cooper brass band for play-along. Experimentation and improvisation is encouraged. Groove Trumpet is especially helpful for classical musicians who want to cross over.

Saint-Jacome, Louis A.
O457SB  Grand Method for Trumpet or Cornet
(spiral-bound ed.) .......... Claude Gordon (CF) $44.99
Saint-Jacome's Grand Method for Trumpet or Cornet is one of the two great pillars of
trumpet methodology along with Arban's Complete Conservatory Method for Trumpet (Cat.
No. O21). The Grand Method has provided trumpet players with the necessary foundation
for success on the instrument for generations since its publication in 1870. This edition con-
tains the recently discovered revisions by Claude Gordon. Gordon has added clarifications
and some contemporary considerations, yet is careful to retain the intended instruction of
Saint-Jacome. Furthermore, this edition includes Duets and Studies by Saint-Jacome and
Bouquet, all edited by the legendary bandmaster Edwin Franko Goldman. Now spiral
bound for ease of use, students of any age can continue a tradition of excellence passed on
through generations.

### Rae, James

- **UE021748** Child’s Play               | (UE)   | $18.50 |

A great start to trumpet performance, Rae’s Child’s Play includes 18 pieces in very gradual progression. The first piece is crafted around a single note, with the piano part adding context and style. Additional notes are introduced through the pieces in the same manner as most major methods. Simple rhythms, small intervals, and a whole lot of encouragement have the student making music right from the start.

As part of his National Parks Series, River Runner brings us up close and personal with the Santa Elena Canyon of Big Bend National Park. The three movements are musical distillations of scenes along a memorable kayaking trip, from the calm waters of the Rio Grande (“Lajitas”) to the awe-inspiring canyon walls (“The Sentinel”) to the rapids (“Rock Slide”) encountered along the way. The 12-minute work was dedicated to trombonist Deb Scott and pianist Ron Petti.

**A true family affair, Ewazen's Quartet from the Heartland** was written to celebrate the retirement of a good friend and long-time band director. The instrumentation reflects those practiced by his wife (flute) and daughters (trumpet and horn), who performed the work at a surprise party with the composer at the piano. The Quartet is an arrangement from the first movement of Ewazen’s Heartland Symphony, which he describes as “lively, energetic, playful, and joyous.”

ARCHIVAL WORKS and OUT-OF-PRINT MATERIALS

If you are looking for an archival or out-of-print work, please complete the photocopy license request form under the “licensing” tab on our website

www.carlfischer.com

Throughout the Trade Guide are titles with the indication “CP.”

These are works available as print-on-demand, or Custom Print, editions. While Custom Print began as a service to provide one-off copies of music that had gone permanently out of print, we quickly realized that this was the perfect opportunity to bring new music to print, which would not otherwise be available!

We take great pride in the advances we’ve made in Custom Print production quality, and we work hard to ensure the shortest turn-around time possible between order and shipment. Today, our Custom Print department ships thousands of copies each year as a matter of routine.

Custom Print editions can be ordered quickly and easily through your Sales Rep, along with all of your normal print music needs.

Most Custom Print orders are shipped the same day or the following day, but if your order is time-sensitive, please be sure to communicate this to your Sales Rep at the time of the order.
